

Kostel sv. Vavřince v Bohdalově

Měřítko přibližně 1:250, doporučeno tisknout na 200g papír

Návod:

Vytvarujte okna 1-4 a vlepíte je spolu s dveřmi 5 do dílů 6-10. Poté díly 6-11 nalepte na podlahu 12 a zpevněte žebry 13-15. Vlepíte okna 16 do schodišť 17 a uzavřete je. Podobně vlepíte okna 18 a dveře 19 do schodišť 20 a uzavřete je. Vytvarujte a slepte okna 21-24, dveře 25 a vlepíte do věže 26. Věž uzavřete a přilepte k dílu 11. Nalepte strop 27 a kolem věže pomocný díl 28. Věž uzavřete přilepením stropu 29. Střechu slepte dle naznačených šipek z dílů 30-33 a přilepte k 27 a 28. Z dílů 34 a 35 udělejte střechu věže a přilepte na strop 29. Z dílů 36-39 slepte věž.

Nyní máte kostel slepen. Kdo chce, může ho začít vylepšovat.

Kostel přilepte na podstavec 40. Na střechu nalepte okna 41. Před dveře schodišť nalepte schůdky 42, ke zbylým dveřím 43. Do oken vlepíte příslušné parapety. Kolem kostela nalepte sokl a na stěny žluté lemy. Do špičky věže vlepíte zbroušené párátka a korálkem.

Dle vlastního vkusu můžete doplnit další doplňky, např. trávu, strom apod.

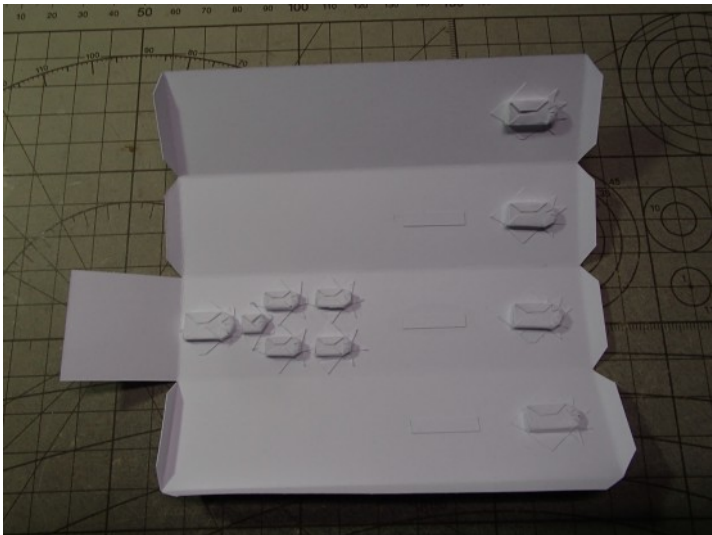

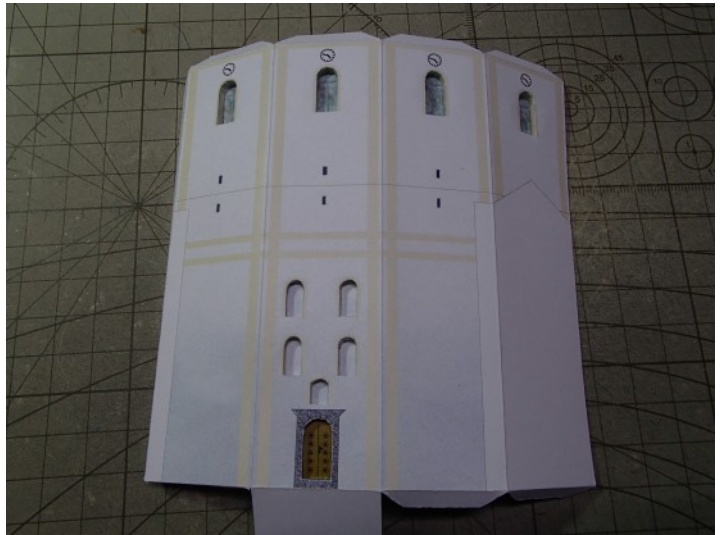

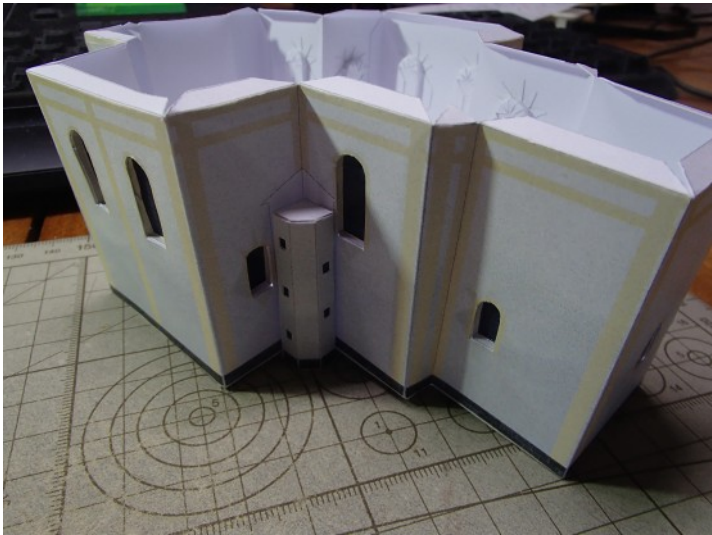

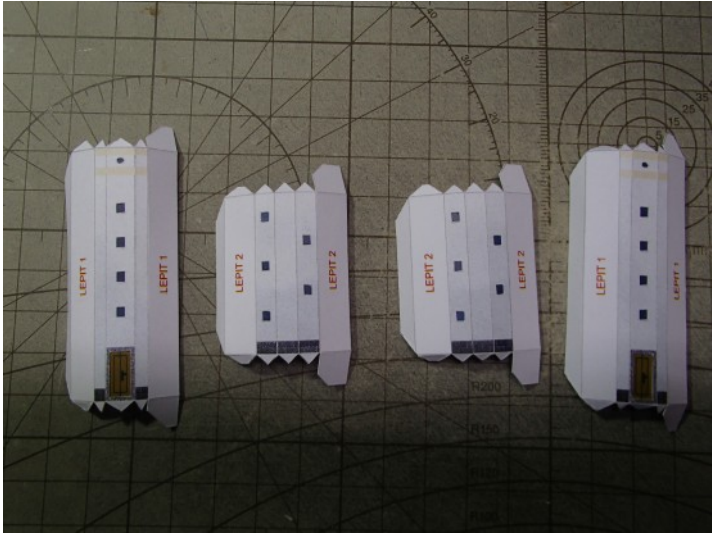

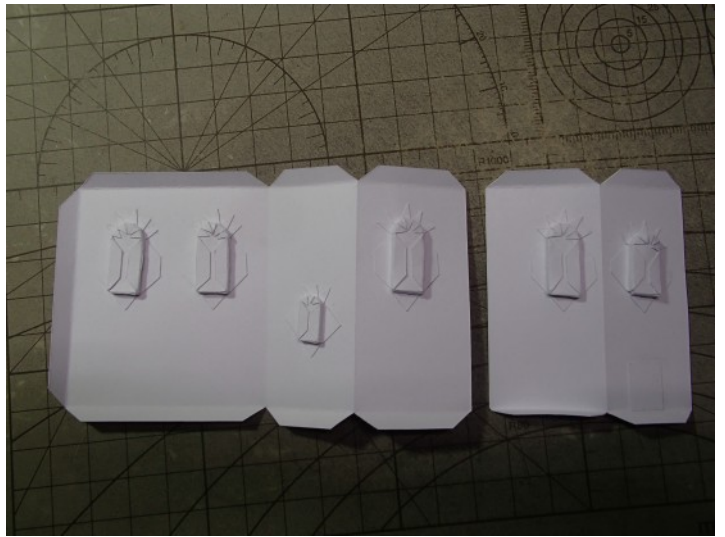

Hotovo, gratuluji!!!

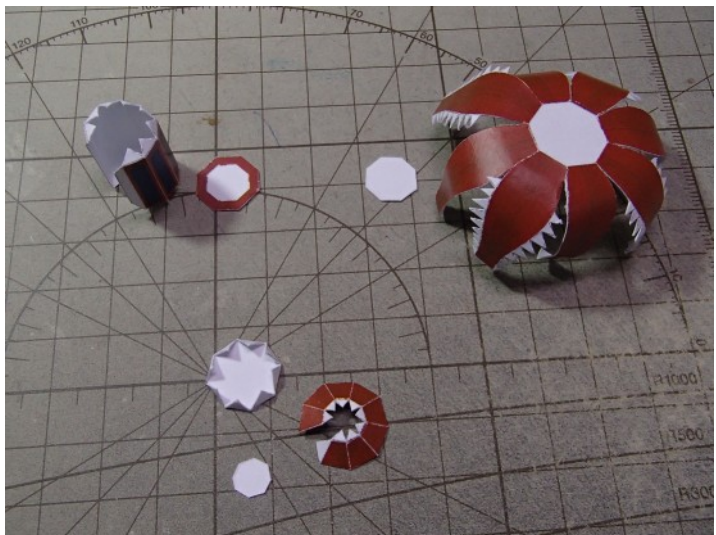

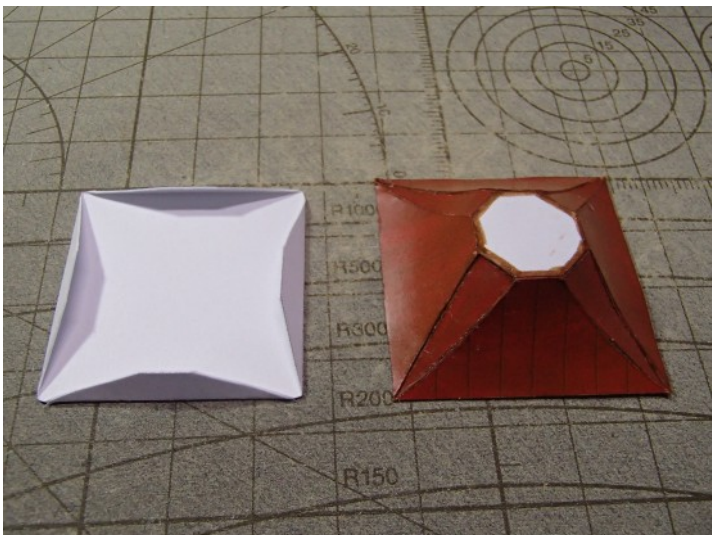

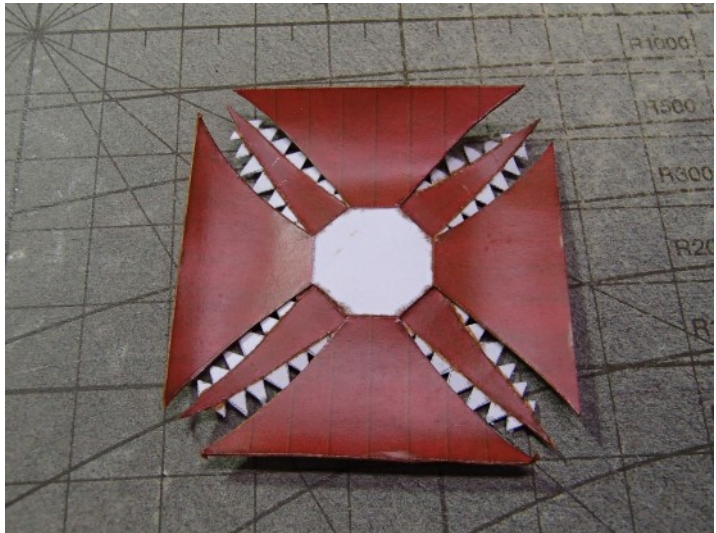

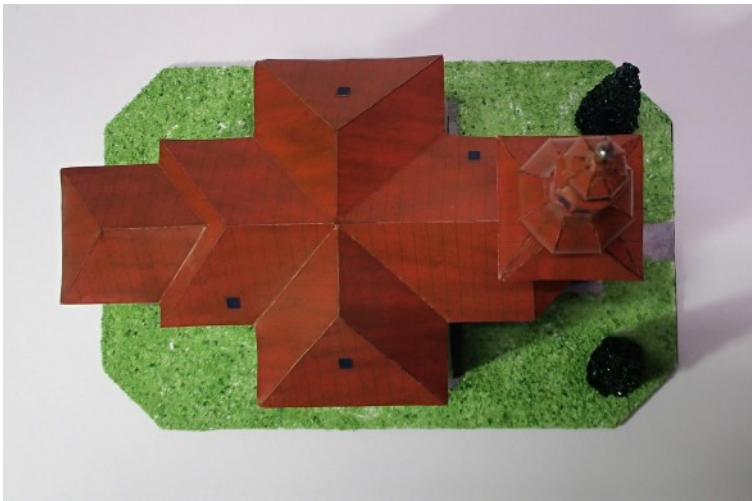

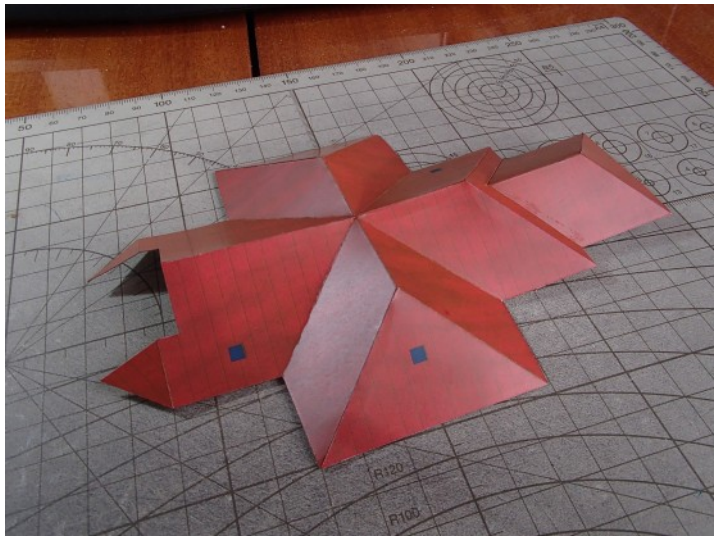

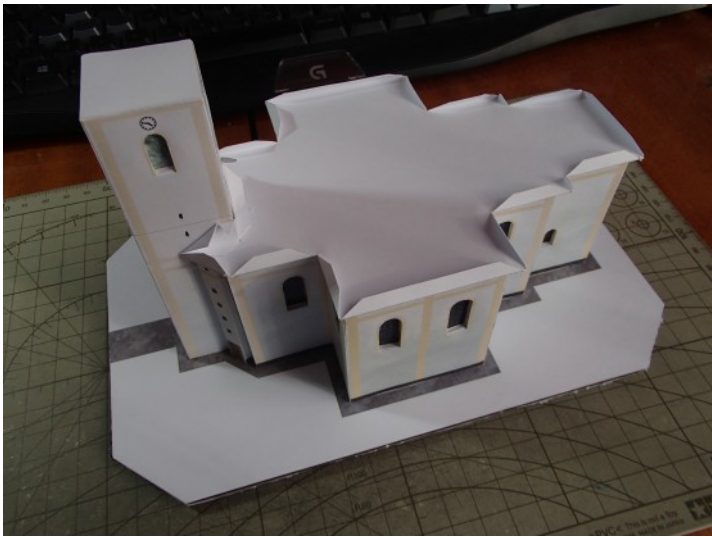

Modře jsou značeny čísla dílů, **červeně** jsou značeny čísla dílů, na které lepit.

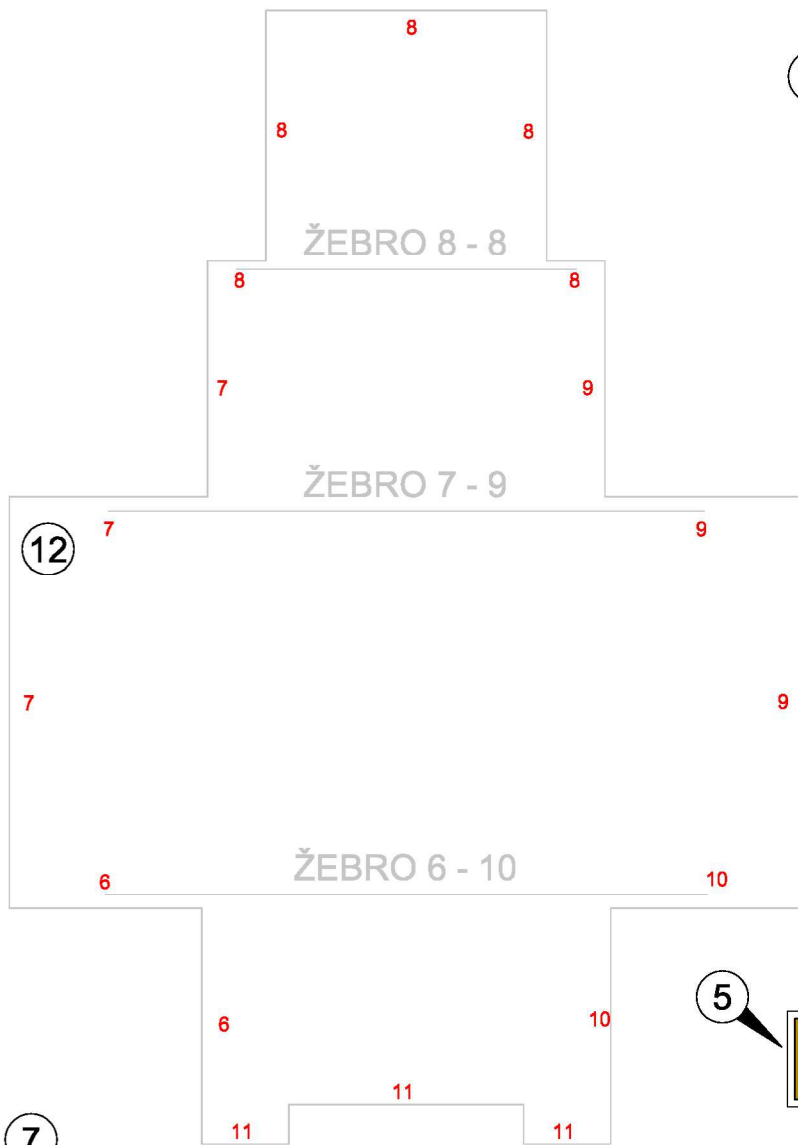

Čárkovaně jsou značeny „Valley line“, **červeně** prořezy.

PS: Pokud se Vám model líbí, napište mi. Pokud se Vám nelíbí, nebo máte nějaké připomínky či náměty na vylepšení, napište mi též. Děkuji. pavel.styl@seznam.cz, <http://papir.pavelstyl.cz>
